Event password: Meeting123

Draft Agenda

Overview:

The agenda primarily consists of 15 minute science presentations (~5 slides), plus 5 minutes for questions, that focus on the impact of physical factors based on river herring derived from observations. The next Climate Change Subgroup call will have more of a climate change focus.

1. Speakers:
 - a. Jon Velotta (Eric Shultz's student) - physiological tolerances of river herring
 - b. Desiree Tommasi - stock-recruitment relationships in relation to the freshwater phase
 - c. Gary Nelson - factors influencing the dynamics of river herring in the Monument River
 - d. Janet Nye (on behalf of Patrick Lynch) - marine phase of river herring
 - e. Kevin Friedland - influence of ocean temperatures on salmon
2. Follow-up discussions from the talks
3. Discussion of data needs for river herring
4. Public comment
