

Mapping & Tracking

Help map the travels of a sturgeon in the river. Pick your favorite colored crayon or marker and draw a dotted line or arrow for where the sturgeon traveled in the river from Monday morning to Saturday night. Each day has a morning, afternoon, and night. Follow the receiver data through the days of the week starting with Monday morning and ending with Saturday night.

Receiver Data:

#1 Monday morning, Monday afternoon, and Saturday afternoon.

#2 Monday evening, and Tuesday morning, Wednesday morning, Saturday morning, and Saturday night.

#3 Tuesday afternoon, Tuesday night, Friday night

#4 Wednesday afternoon, Wednesday night

#5 Thursday morning, Thursday afternoon, Thursday night

#6 Friday morning, Friday afternoon
