

# Make a Paper Sturgeon!

Atlantic and shortnose sturgeon are two ancient looking fish that live along the Atlantic coast of the United States in rivers, estuaries and the ocean. They are both listed under the Endangered Species Act. Follow the directions below to make your own paper sturgeon. This works best with thicker paper (i.e. card stock).

Atlantic Sturgeon

Atlantic Sturgeon Pectoral and Pelvic Fins

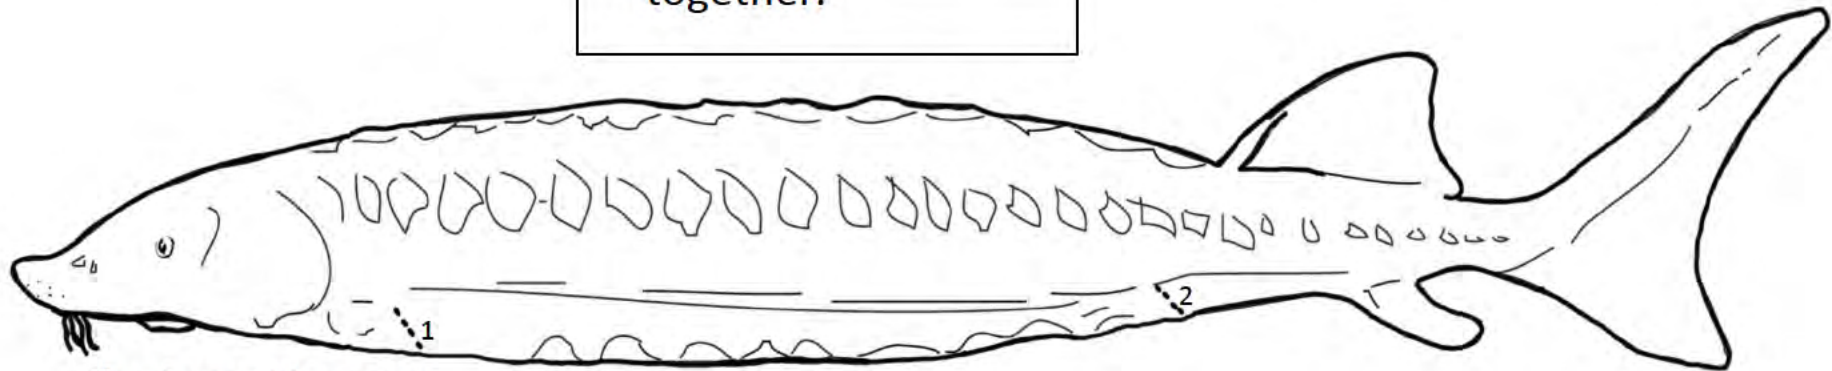

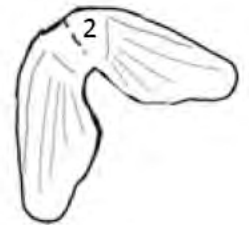

## Instructions:

1. Color the fish and fins.
2. Cut out fish and fins.
3. Cut along the dotted lines.
4. Fit the pieces together.
