

of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: September 16, 2013.

David M. Frank,
Bridge Administrator.

[Docket No. 111220786-1781-01]

RIN 0648-XC878

Fisheries of the Northeastern United States; Summer Flounder Fishery; Commercial Quota Harvested for the State of New York

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS announces that the 2013 summer flounder commercial quota allocated to the State of New York has been harvested. Vessels issued a commercial Federal fisheries permit for the summer flounder fishery may not land summer flounder in New York for the remainder of calendar year 2013, unless additional quota becomes available through a transfer from another state. Regulations governing the summer flounder fishery require publication of this notification to advise New York that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no Federal commercial quota is available for landing summer flounder in New York.

DATES: Effective October 1, 2013, through December 31, 2013.

FOR FURTHER INFORMATION CONTACT: Carly Bari, (978) 281-9224, or Carly.Bari@noaa.gov.

SUPPLEMENTARY INFORMATION: Regulations governing the summer flounder fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that

is apportioned on a percentage basis among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.102.

The initial total commercial quota for summer flounder for the 2013 fishing year is 11,793,596 lb (5,349,575 kg) (77 FR 76942, December 31, 2012). The percent allocated to vessels landing summer flounder in New York is 7.64699 percent, resulting in a commercial quota of 901,855 lb (409,081 kg). The 2013 allocation was adjusted to 842,605 lb (382,206 kg) after deduction of research set-aside and adjustment for prior years' quota overages.

The Administrator, Northeast Region, NMFS (Regional Administrator), monitors the state commercial landings and determines when a state's commercial quota has been harvested. NMFS is required to publish notification in the **Federal Register** advising and notifying commercial vessels and dealer permit holders that, effective upon a specific date, the state's commercial quota has been harvested and no commercial quota is available for landing summer flounder in that state. The Regional Administrator has determined, based upon dealer reports and other available information that, New York has harvested its quota for 2013.

Section 648.4(b) provides that Federal permit holders agree, as a condition of the permit, not to land summer flounder in any state that the Regional Administrator has determined no longer has commercial quota available. Therefore, effective 0001 hours, October 1, 2013, landings of summer flounder in New York by vessels holding summer flounder commercial Federal fisheries permits are prohibited for the remainder of the 2013 calendar year, unless additional quota becomes available through a transfer and is announced in the **Federal Register**. Effective 0001 hours, October 1, 2013, federally permitted dealers are also notified that they may not purchase summer flounder from federally permitted vessels that land in New York for the remainder of the calendar year, or until additional quota becomes available through a transfer from another state.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

The Assistant Administrator for Fisheries, NOAA (AA), finds good cause pursuant to 5 U.S.C. 553(b)(B) to waive prior notice and the opportunity for public comment because it would be

contrary to the public interest. This action closes the summer flounder fishery for New York until January 1, 2014, under current regulations. The regulations at § 648.103(b) require such action to ensure that summer flounder vessels do not exceed state quotas. If implementation of this closure was delayed to solicit prior public comment, the quota for this fishing year will be exceeded, thereby undermining the conservation objectives of the Summer Flounder Fishery Management Plan. The AA further finds, pursuant to 5 U.S.C. 553(d)(3), good cause to waive the thirty (30) day delayed effectiveness period for the reason stated above.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 24, 2013.

Kelly Denit,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Main Hawaiian Islands Deep 7 Bottomfish Annual Catch Limits and Accountability Measures for 2013-14

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final specifications.

SUMMARY: NMFS specifies an annual catch limit of 346,000 lb of Deep 7 bottomfish in the main Hawaiian Islands for the 2013-14 fishing year. The action supports the long-term sustainability of Hawaii bottomfish.

DATES: The final specifications are effective October 28, 2013, through August 31, 2014, unless NMFS publishes a document in the **Federal Register** superseding these specifications.

ADDRESSES: Copies of the Fishery Ecosystem Plan for the Hawaiian Archipelago are available from the Western Pacific Fishery Management Council (Council), 1164 Bishop St., Suite 1400, Honolulu, HI 96813, tel 808-522-8220, or www.wpcouncil.org.
