Cumulative meat pounds*	Percent of quota (463,059 lb)
409,965	88.5

*In order to comply with data confidentiality requirements this table does not show weekly or monthly landings

These data are the best available to NOAA's National Marine Fisheries Service (NMFS) when this report was compiled. Data for this report are supplied to NMFS from vessels via the Vessel Monitoring System, Scallop Pre-Landing Reports, and Vessel Trip Reports, and dealers via Dealer Electronic Reporting. Data may be preliminary. Discrepancies with previous reports are due to corrections made to the database.

Please note; our previous fishing year 2013 weekly overall days-at-sea reports, posted here through October 24, 2013, were incorrect. The previous reports did not include open area days-at-sea pounds in the cumulative pounds calculation. The corrected 2013 overall days-at-sea report, as of October 31, 2013, increased from 25.8% to 77.2%. We apologize for any confusion and difficulties that this error may cause.

In order to comply with data confidentiality requirements, this report does not show a plot of cumulative landings
