In-season adjustment of skate bait possession limits. When the Regional Administrator projects that 90 percent of the skate bait fishery seasonal quota has been landed in Seasons 1 or 2, or 90 percent of the annual skate bait fishery TAL has been landed, the Regional Administrator shall, through a notice in the Federal Register consistent with the Administrative Procedure Act, reduce the skate bait trip limit to the whole weight equivalent of the skate wing trip limit for the remainder of the quota period, unless such a reduction would be expected to prevent attainment of the seasonal quota or annual TAL.
