Notice

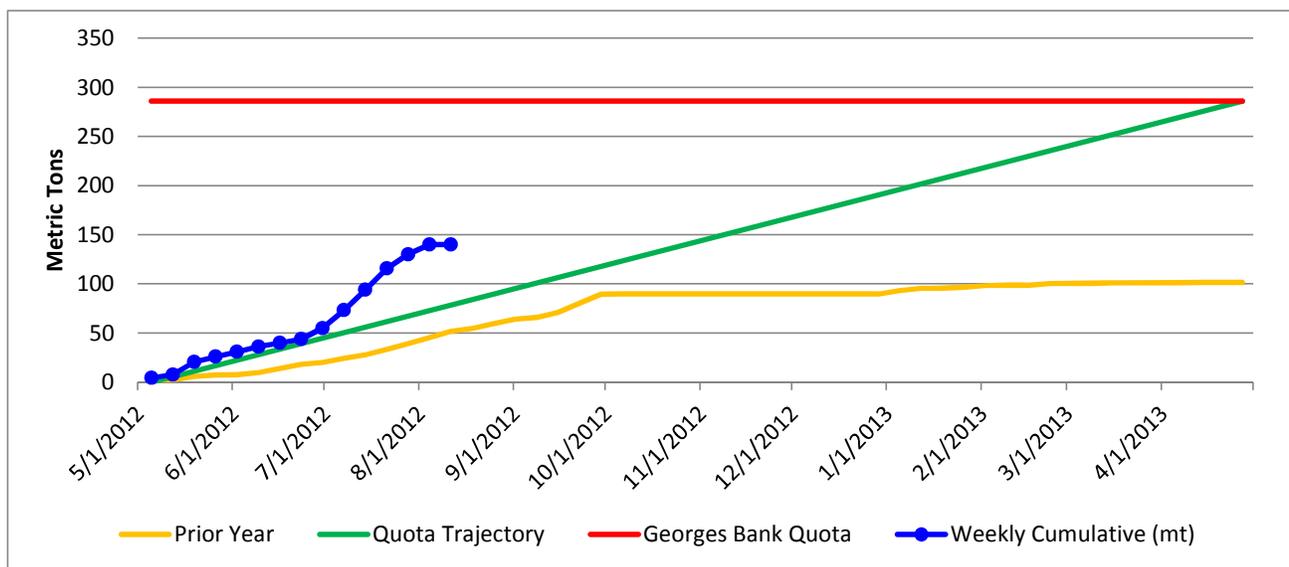

The Georges Bank (GB) haddock incidental catch cap is monitored based on the Northeast multispecies fishing year (May 1-April 30).

If the GB haddock incidental catch cap is caught, any vessel issued a herring permit and using midwater trawl gear may not fish for, possess, or land more than 2,000 lb of herring in the Herring GB Haddock Accountability Measure Area.

These data are the best available to NOAA's National Marine Fisheries Service (NMFS) when this report was compiled. Data for this report are supplied to NMFS from vessels via the Vessel Monitoring System (VMS), the Vessel Trip Report System (VTR), and the Northeast Fisheries Observer Program. Data may be preliminary. Discrepancies with previous reports are due to corrections made to the database.
