*Sector catch based on weekly sector summary reports to NMFS through the week ended July 24, 2010. Common pool catch based on dealer electronic reports, vessel reports, and observer data as of July 29, 2010.

**Current total sector allocation and common pool sub-ACL.

**National
Oceanic and
Atmospheric
Administration**

These data were the best available to NOAA's National Marine Fisheries Service (NMFS) when this report was compiled. Data for this report are supplied to NMFS from sector managers, dealer electronic reports, vessel reports, and observer reports. Data in this report are based on data through July 30, 2010 and are preliminary. Differences with data from previous reports are due to corrections made to the database or additional reports being received from a sector manager.
