

Summary Tables for FY 2012 Northeast Multispecies Fishery

These summary tables were produced by NOAA Fisheries Service's Northeast Regional Office. The summary tables compare data for the full twelve months of the Northeast Multispecies fishing year (May-April) for fishing years 2009, 2010, 2011 and 2012. These tables, as well as additional data and analysis, will be presented in the 2012 Final Report on the Performance of the Northeast Multispecies (Groundfish) Fishery (May 2012 - April 2013), to be produced and released by NOAA's Northeast Fisheries Science Center's Social Science Branch in Fall 2013. The FY2011 Final Report may be viewed on the NEFSC's Social Sciences Branch homepage.

List of Tables

Note throughout this report "Trips" refer to commercial trips in the Northeast Exclusive Economic Zone (EEZ). This is an adjustment from previous reports which included other trips, primarily party/charter trips, and as a result some prior year data have changed.

Unless otherwise indicated this report is based on active vessels, which are vessels that received revenue from any species on any trip while fishing under a limited access groundfish permit

Table 1. Summary of major trends – includes all vessels with a valid limited access multispecies permit.

Table 2 – Total landings and revenue from all trips

Table 3 – Total landings and nominal revenue from groundfish trips.

Table 4 – Nominal value of landings of all species by state and port of landing (all trips)

Table 5 – Nominal value of landings of all species by home state and home port (all trips)

Table 6 – Nominal value of landings of groundfish by state and port of landing (all trips)

Table 7 – Nominal value of landings of groundfish by home state and home port (all trips)

Table 8 – Nominal value and landed pounds of top ten non-groundfish species landed by limited access groundfish vessels

Table 9 – Number of vessels by fishing year

Tables 10 and 11 (formerly Table 31 and 32) - Numbers of vessels with revenue from any species (all trips) and from at least one groundfish trip, respectively.

Table 12 (formerly Table 10) – Effort by active vessels (by size category) . Shows the number of groundfish and non-groundfish trips, with days absent and average trip length.

Table 13 (formerly Table 11) – Average nominal revenue per vessel (by size category). Shows the average revenue from all species, average revenue from groundfish, and average revenue for all species on groundfish trips.

Table 14 (formerly Table 12) – Average nominal revenue per trip and days absent (by size category). Shows average revenue per groundfish trip and per non-groundfish trip, average revenue per day on groundfish trips, and average revenue per day on a non-groundfish trips.

Tables 18 and 19 (formerly Tables 35 and 36) - Distributions of nominal revenue from all species and from groundfish respectively, (all trips) among vessels

Tables 22 and 23 (formerly Tables 39 and 40) - Numbers of vessels with revenue from all species and groundfish respectively, (on all trips) by cumulative quartiles (ordered high revenue to low).

Table 26 (formerly Table 43) – Changes in employment indicators by vessel size category (all trips).

Table 27 (formerly Table 44) – Changes in employment by home state (all trips). Shows total number of crew positions, crew trips, crew days, and crew day/crew trip.

Additional Tables that will not be in the NEFSC Final Report

Table 9. Number of vessels by fishing year (May through April)

	2009	2010			2011			2012		
	Total	Total	Sector Vessels	Common Pool	Total	Sector Vessels	Common Pool	Total	Sector Vessels	Common Pool
As of May 1 each Fishing Year:										
Total groundfish limited access eligibilities	1464	1441	762	679	1422	828	594	1408	850	558
Eligibilities held as Confirmation of Permit History	81	94	22	72	168	88	80	228	145	83
During any part of the fishing year*:										
Total eligible vessels	1,459	1,409	765	650	1,321	781	547	1,223	728	501
Eligible vessels that did not renew a limited access groundfish permit	28	26	12	14	42	9	33	46	8	38
Vessels with a limited access groundfish permit	1,431	1,383	753	636	1,279	772	514	1,177	720	463
While under a limited access groundfish permit:										
... those with revenue from any species**	916	854	435	419	776	442	337	764	446	320
... those with revenue from at least one groundfish trip	566	445	303	142	419	301	120	401	303	99
... those with no landings	515 (36%)	529 (38%)	318 (42%)	217 (34%)	503 (39%)	330 (43%)	177 (34%)	413 (35%)	274 (38%)	143 (31%)

* On May 1st of the fishing year the number of vessels will equal to the number of eligibilities not in Confirmation of Permit History (CPH). Over time the number of vessels will differ from the number of eligibilites because these eligibilites can be transferred from vessel to vessel during the fishing year.

Note sector plus common pool vessel counts may exceed the total vessel count because vessels may switch between sector and common pool eligibilites during the fishing year.

These numbers exclude groundfish limited access eligibilities held as Confirmation of Permit History (CPH). Starting in 2010, Amendment 16 authorized CPH owners to join Sectors and to lease DAS. For purposes of comparison, CPH vessels are not included in the data for either Sector or Common Pool.

**Active vessels in this report received revenue from any species while fishing under a limited access groundfish permit

Allocated groundfish revenue include estimate of missing dealer reports; dealer and vessel-reported revenue for other species, including non-allocated groundfish species.

* Note sector vessel plus common pool vessel counts may exceed the total vessel count because vessels may switch between sector and common pool eligibilites during the fishing year.
