1. The target TAL for each management area is equal to the ACT minus an assumed discard rate of 11% for the northern area and 22% for the southern area.
The assumed discard rates are from the SARC 50 (data through 2009).

2. The three digit statistical areas defined below are for statistical and management purposes and may not be consistent with stock area delineation used for biological assessment (see the attached statistical chart).

Monkfish Stock Areas: Northern: 464-465, 467, 511-515, 521-522, 561-562

Southern: 525-526, 533-534, 537-539, 541-543, 611-639

3. Landings in live weight.

4. Gear data are based on vessel trip reports.

* Fishing Year is May 1 through April 30.
