## Notice

The 2018 and projected 2019 Scup Specifications have established the 2019 commercial scup quota upon their publication on December 17, 2018, 83 FR 64482.

Unused quota from the Winter I period will be transferred to Winter II.

\*/ Negative landings can be the result of updates to the database (e.g. reported Research Set-Aside landings are subtracted from the Commercial Current Week's Landings or Previous Weeks' Updates). As a result, the Commercial Current Week's Landings or Previous Weeks' Updates can be negative.
