

ALWTRP Vertical Line Rule Development and Plan Monitoring Schedule

All Together - Accelerated

	April 2009 - May 2009	May 2009 - April 2010	May 2010 - April 2011	May 2011 - April 2012	May 2012 - April 2013	May 2013 - April 2014	May 2014 - April 2015	May 2015 - April 2016
Vertical Line Model Development								
Finalize Northeast state vessel gear configurations								
Collect data on Mid Atlantic gear data								
Finalize Mid Atlantic gear data								
Collect data on Southeast gear data								
Finalize Southeast gear data								
SPUE Data								
Northeast Right Whale 2000-2007 data								
Northeast Fin Whale 2000-2007 data								
Northeast Humpback 2000-2007 data								
Investigate methods for Mid Atlantic								
Investigate methods for Southeast Region								
Compile layers for Mid Atlantic								
Compile layers for Southeast								
Co-Occurrence Overlays								
Northeast Options								
Mid Atlantic Options								
Southeast Options								
Management Options								
Prioritize areas based on co-occurrence								
Conduct survey to collect baseline VL #s in priority areas								
Identify options and effect on co-occurrence								
Work out details of options (marking, baseline)								
Conduct economic analysis of options								
Identify preferred option								
Draft and clear proposed rule								
Public comment								
Draft and clear final rule								
Publish final rule (+ 30 day effective date)								
ALWTRP Monitoring								
Workshop	February 23-24, 2009							
Plan Developed								
Effective Date of Broad Trap/Pot Floating Groundline Prohibition (NOTE: Broad Gillnet Sinking Groundline Prohibition October 5, 2008; and other ALWTRP Modifications April 5, 2008)	April 5, 2009							
Year 1 Interim Report (based on 2010 data)					July 2012			
Year 2 Interim Report (based on 2011 data)						July 2013		
Year 3 Interim Report (based on 2012 data)							July 2014	
Year 4 Interim Report (based on 2013 data)								July 2015
Year 5 Report (based on 2010 - 2014 data)								July 2016
